

Dermaplane Aftercare Instructions

1. You may experience slight redness and swelling, which should resolve within 24 hours.
2. Mineral make-up can be worn immediately following treatment.
3. Avoid heat, saunas, hot tubs and sweaty activity for 24 hours; this includes exercise of any kind.
4. Avoid products containing any exfoliating agents (retinoic acid, retinol, tretinoin, retinol, benzoyl peroxide, glycolic acid, salicylic acid, astringents, etc.) for 24 hours after treatment.
5. You may resume your regular skin care routine 24 hours after treatment.
