

Allergy Shot Schedule

We have 3 location options where you may choose to receive your Immunotherapy.

Unfortunately we are unable to move vials between clinics so please choose the one location that you will be able to consistently visit each week.

Please note that each clinic has *specific* days and times available based on when the physician and the allergy team will be there to administer your shots.

Mandeville 1420 N Causeway Blvd Mandeville, LA 70471	Monday - Thursday 8am - 12pm 1pm – 4:30pm
---	--

Hammond 15706 Professional Plaza Hammond, LA 70403	Tuesday only 1pm-4:30pm
---	-----------------------------------

Slidell 1258 Brownswitch Rd Slidell, LA 70461	Monday only 1pm-4:30pm
--	----------------------------------

In order to receive injections each week, it is *required* that you bring your Epi-pen. Our goal is that you never need to use this; however, we require that you bring it with you to each shot visit and keep it on hand for 2 hours after your injection. We strive to provide the lowest cost option available based on your insurance coverage. With private insurance, you may receive a call from ASPN pharmacies to have the Auvi-Q injector mailed to your home at zero cost to you. If your insurance is a government program such as Medicare or Tricare, we will send the generic option to your pharmacy to limit the cost to you.

Should you have any further questions, please contact our office by calling 985-327-5905.
